

Who pays for Health Home Services?

Medicaid pays for care management services for those who are eligible. It does not cost you anything to enroll.

What if I am a member of a Managed Care Organization?

Members of Medicaid Managed Care Organizations are eligible to receive Health Home Care Management.

Once you complete the application and consent form, CNYHHN will contact your Managed Care Organization to let them know.

Working Together to Enhance Patient Wellness

What is a Health Home?

A “Health Home” is not a place.

It is a group of health care and service providers working together to make sure you get the care and services you need to stay healthy.

The **Goal** of the Health Home is to improve your **physical health** and **emotional well-being** by supporting your health and recovery.

The Health Home Care Managers can assist you in many ways.

Health Home **Care Managers** are trained to consider all of your needs. You will receive support in areas including **housing, legal assistance** and becoming involved in **social or community activities**.

Health Home Care Managers also help when you are in the hospital to make sure your needs at the time of discharge are met.

What are the Benefits?

Care Mangers are caring individuals who talk with you about your goals, needs, and what will make your life meaningful.

They also know where to go and who to talk with in order to make sure these needs are met as quickly as possible and that you have the supports needed for recovery.

You and your Health Home Care Manager will develop a Care Plan that, with your permission, gets shared with your Primary Care Doctor, Physicians, Mental Health counselors and other service providers.

The Care Plan allows all of our providers to support your goals!
